Clarke Creek Wind Farm, Queensland (EPBC 2018/8141): Biodiversity Management Plan and Cycad Translocation Management Plan.

Dear Mr Boutry

Thank you for submitting the above management plans for approval in accordance with the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act).

Officers of the Department have advised me on the plans and on the requirements of the EPBC Act conditions of approval for this project. On this basis, and as a delegate of the Minister for the Environment, I have decided to approve:

- the *Clarke Creek Wind Farm – Biodiversity Management Plan*, Revision 3.2, dated 19 May 2020; and
- the *Clarke Creek Wind Farm – Cycad Translocation and Management Plan*, Revision V4.3, dated 27 May 2020;

in accordance with Condition 4 of the approval for EPBC 2018/8141.

The approved plans must now be implemented. Please note that if you wish to vary an approved plan you must either:

- submit for the Minister's approval a revised version of the plan in accordance with the requirements of section 143A of the EPBC Act; or
- if the taking of the action in accordance with the revised plan would not be likely to have a new or increased impact, notify the Department in writing in accordance with the requirements of Condition 33 of the approval.

Should you require any further information please contact Vaughn Cox directly or by email at postapproval@awe.gov.au.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Greg Manning'.
